

2018 FALL LAKE REGATTA

The 2018 Lake Fall Regatta saw the largest number of J24's in recent history. Twelve boats participated in what turned out to be a fantastic day of racing. The winds were consistent, ranging from 7-12 kts out of the SSE allowing the race committee to get in six races. All 12 boats competed in every race, which made for some outstanding racing. Winds were fairly consistent across the course, oscillating about 10-15degrees, although the breeze did slowly trend right, favoring that side of the course just a bit. Success was spread across the fleet with eight different boats posting individual race scores of 3rd or better. After an amazing, yet tiring, day of racing, our fleet was treated to free food and beer by the marina management staff. Overall, a pretty amazing way to close out another great year of racing on the lake. We are all so very lucky to have such a great J24 fleet here in Seattle!!

A very special thank you to Lydia, Bill and Mark for their tireless efforts in leading our fleet, to Troy and his team for an AMAZING job at this event and throughout the season, and to our team of measurers (Michael, Noel, and Hans) for all of their work year-round.

See you all Next Year!!!

Scott Milne
